[Docket No. 94-ASW-3; Special Condition 29-ASW-15]

Special Condition: Bell Helicopter Textron Model 222U Helicopter, Electronic Flight Instrument System

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final special condition.

SUMMARY: This special condition is issued for the Bell Helicopter Textron, Inc., Model 222U helicopter modified by Heli-Dyne Systems, Inc. This helicopter will have a novel or unusual design feature associated with the Electronic Flight Instrument System. This special condition contains additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to

that established by the airworthiness standards.

EFFECTIVE DATE: May 19, 1995.

FOR FURTHER INFORMATION CONTACT:

Mr. Robert McCallister, FAA, Rotorcraft Directorate, Policy and Procedures Group, Fort Worth, Texas 76193-0110; telephone (817) 222-5121.

SUPPLEMENTARY INFORMATION:

Background

On May 16, 1994, Heli-Dyne Systems, Inc., Hurst, Texas, applied for a Supplemental Type Certificate for installation of an Electronic Flight Instrument System in the Bell Helicopter Textron (BHTI) Model 222U helicopter. This model helicopter is a 10 passenger, 2 engine, 8,250 pound (Category B) or 7,850 pound (Category A) transport category helicopter.

Type Certification Basis

The certification basis established for the BHTI Model 222U helicopter includes: 14 CFR 21.29 and part 29 of the Federal Aviation Regulations (FAR) effective February 1, 1965 (Transport Categories A and B), Amendments 29-1 through 29-9; Amendment 29-11; § 29.997 of Amendment 29-10; § 29.927(b)(2) of Amendment 29-17; §§ 29.801, 29.25(c) 29.865, 29.1557(c), and 29.1555(c) of Amendment 29.12; §§ 29.1, 29.79, 29.1517, and 29.1587 of Amendment 29-21; Criteria for Helicopter Instrument Flight Rule (IFR) certification dated December 15, 1978; Exemption No. 2789, § 29.811(h)(1) (following Amendment 24, effective December 6, 1984, § 29.811(h)(1) became § 29.811(f)(1)); and Exemption No. 4395, § 29.855 (a) and portions of § 29.855(d).

If the Administrator finds that the applicable airworthiness regulations do not contain adequate or appropriate safety standards for these helicopters because of a novel or unusual design feature, special conditions are prescribed under the provisions of § 21.16 to establish a level of safety equivalent that established in the regulations.

Special conditions, as appropriate, are issued in accordance with § 11.49 of the FAR after public notice, as required by §§ 11.28 and 11.29(b), and become part of the type certification basis in accordance with § 21.101(b)(2).
